A variety of perspectives, a wealth of experience. Only at Cardinal Health.
We are happy to have you with us at our 2015 Spring Hospital Pharmacy Conference here in sunny Orlando, FL! This conference is a perfect platform to network and connect, develop business relationships, be inspired by thought-provoking education, and discover new technology products. Special thanks to Cardinal, our title sponsor, for their continued support of this unparalleled event.

Over the next few days, our conference will provide you with numerous networking opportunities as well as educational sessions with topics including “Hazardous Drugs,” “Control Substance Drug Diversion,” and “Biosimilars - Implications for Hospitals and Health Systems.” We are also proud to present Dr. Jason Selk as our keynote speaker for a powerful session entitled “Relentless Solution Focus: The Ultimate Measure of Mental Toughness”.

As always, this conference features two Reverse EXPO sessions (Tuesday afternoon & Wednesday morning), sponsored by Cantrell Drug Company, where the Hospital Pharmacy Directors host the booths while the suppliers walk through the expo hall. Don’t miss the Supplier Showcase, open on Monday only from 12:00 noon – 4:00 pm in Oceans Ballroom. Stop by to check it out, and if you are interested in having a showcase of your own at the next conference, visit the HCP table in the expo hall to let us know.

If you need assistance at any time, our staff at the registration desk are happy to help.

Sincerely,

Jason Green  
Chief Sales Officer
David Mason is Co-Founder and CEO of Health Connect Partners. Prior to founding HCP, he was Founder and President of BCX Technology, Inc., a software automation company specializing in supply automation for acute care hospitals. He led the BCX team for eight years and sold the company in 2003 to Omnicell.

David and his wife Tammy have two wonderful children, Alexis (21) and Madison (14). Alexis is married to Zac Morgan and they live in Johnson City, TN, where they both attend physical therapy school at East Tennessee State University. Madison stays busy with music lessons and is very good at piano. An avid boater, David spends his time boating with his family, fishing, diving, lobster hunting, spear fishing, running, swimming and mountain bike riding. David enjoys Corvettes and participates in autocross events in his 2007 Corvette with his local Corvette club. David is a graduate of Nashville State Technical Institute, Chairman of the Board for BCX Foundation (a nonprofit educational foundation for children), a Black Belt in Wado Ryu Karate and an Eagle Scout.

Jason Green holds the post of Chief Sales Officer for Health Connect Partners. He has extensive experience in the healthcare industry, working in both large corporate environments and small start-up healthcare organizations. Jason’s ability to relate to customers and colleagues has allowed him to foster many long-term relationships throughout the healthcare industry. He loves spending time with customers and engaging about their business, families and ways he can be helpful.

Jason and his wife Dana have two children, Max (11) and Ella Kate (5), who keep him dedicated to a busy social calendar. Ella Kate is involved with dance, gymnastics, cheerleading and ballet. She loves dressing up and raiding the closet for mom’s newest outfits, shoes and hats. Max has kicked off his 2015 golf tour with his first tournament at Innisbrook Golf Club just outside of Tampa, FL. He will continue to advance through to many tournaments in many exciting golf resorts in NC, FL, GA and VA. When not studying, he can be found with his clubs and fishing pole heading to the course or tormenting the local alligator in a nearby pond.

During the break in activity, Jason enjoys playing golf, fishing, snow skiing and anything that involves water. This past year he found a new passion for fly fishing as he spent 10 days fishing in the beautiful rivers of the North Carolina Mountains. He is actively involved in his community, serving on several charitable volunteer boards. Jason is a graduate of Ohio University. He continues to cheer for the Pittsburgh Steelers, Boston Red Sox, Ohio State Buckeyes and most recently the switch to the SEC South Carolina Gamecocks.

Nelson Hendry, Co-Founder and President, oversees the Providers registration and participation at all HCP Conferences. Prior to founding HCP, he served as Regional Vice President of Corporate Sales for Omnicell, working with large IDN Health Systems and the major GPOs. He was awarded the 2005 Salesman of the Year Award for Omnicell’s Specialty Sales. Nelson graduated with a Bachelor of Science degree from Florida State University.

Nelson and his wife Evelyn have three boys. Joseph (26) is a 3D video game artist at Pocket Gems in San Francisco, and enjoys weight lifting in his spare time. Justin (24) is a recent M.I.T. Graduate with a degree in Mechanical Engineering and is now an equity stock trader at Kershner Trading Group in Austin, TX. Taylor (12) is in 6th grade at Berkeley Prep School in Tampa and is a soccer player, fantasy and flag football enthusiast, and loves to do any kind of fishing.
Important Safety Information

Kcentra is a blood coagulation factor replacement product indicated for the urgent reversal of acquired coagulation factor deficiency induced by Vitamin K antagonist (VKA—eg, warfarin) therapy in adult patients with acute major bleeding or the need for urgent surgery or other invasive procedure. Kcentra is for intravenous use only.

WARNING: ARTERIAL AND VENOUS THROMBOEMBOLIC COMPLICATIONS

Patients being treated with Vitamin K antagonist therapy have underlying disease states that predispose them to thromboembolic events. Potential benefits of reversing VKA should be weighed against the risk of thromboembolic events, especially in patients with history of such events. Resumption of anticoagulation therapy should be carefully considered once the risk of thromboembolic events outweighs the risk of acute bleeding. Both fatal and nonfatal arterial and venous thromboembolic complications have been reported in clinical trials and postmarketing surveillance. Monitor patients receiving Kcentra, and inform them of signs and symptoms of thromboembolic events. Kcentra was not studied in subjects who had a thromboembolic event, myocardial infarction, disseminated intravascular coagulation, cerebral vascular accident, transient ischemic attack, unstable angina pectoris, or severe peripheral vascular disease within the prior 3 months. Kcentra might not be suitable for patients with thromboembolic events in the prior 3 months.

Kcentra is contraindicated in patients with known anaphylactic or severe systemic reactions to Kcentra or any of its components (including heparin, Factors II, VII, IX, X, Proteins C and S, Antithrombin III and human albumin). Kcentra is also contraindicated in patients with disseminated intravascular coagulation. Because Kcentra contains heparin, it is contraindicated in patients with heparin-induced thrombocytopenia (HIT). Hypersensitivity reactions to Kcentra may occur. If patient experiences severe allergic or anaphylactic type reactions, discontinue administration and institute appropriate treatment. In clinical trials, the most frequent (≥2.8%) adverse reactions observed in subjects receiving Kcentra were headache, nausea/vomiting, hypotension, and anemia. The most serious adverse reactions were thromboembolic events, including stroke, pulmonary embolism and deep vein thrombosis. Kcentra is derived from human plasma. The risk of transmission of infectious agents, including viruses and, theoretically, the Creutzfeldt-Jakob disease (CJD) agent, cannot be completely eliminated. The safety and efficacy of Kcentra in pediatric use have not been studied, and Kcentra should be used in women who are pregnant or nursing only if clearly needed.

Please see brief summary of full prescribing information on reverse.

Kcentra®—Ready When You Need It

- The first and only non-activated 4F-PCC for urgent warfarin reversal in adult patients with:
  - Acute major bleeding or
  - Need for an urgent surgery/invasive procedure
- Mean infusion time ~7x faster than plasma
- Room temperature storage for 36 months

Kcentra has over 15 years of clinical experience as Beriplex® outside the US.

Kcentra Hotline: 1-855-4KCENTRA (1-855-452-3687)
KCENTRA® (Prothrombin Complex Concentrate [Human])
For Intravenous Use, Lyophilized Powder for Reconstitution
Initial U.S. Approval: 2013

BRIEF SUMMARY OF PRESCRIBING INFORMATION
These highlights do not include all the information needed to use Kcentra safely and effectively. See full prescribing information for Kcentra.

WARNING: ARTERIAL AND VENOUS THROMBOEMBOLIC COMPLICATIONS
Patients being treated with Vitamin K antagonists (VKA) therapy have underlying disease states that predispose them to thromboembolic events. Potential benefits of reversing VKA should be weighed against the potential risks of thromboembolic events, especially in patients with the history of a thromboembolic event. Resumption of anticoagulation should be carefully considered as soon as the risk of thromboembolic events outweighs the risk of acute bleeding.

• Both fatal and non-fatal arterial and venous thromboembolic complications have been reported with Kcentra in clinical trials and post marketing surveillance. Monitor patients receiving Kcentra for signs and symptoms of thromboembolic events.
• Kcentra was not studied in subjects who had a thromboembolic event, myocardial infarction, disseminated intravascular coagulation, cerebral vascular accident, transient ischemic attack, unstable angina pectoris, or severe peripheral vascular disease within the prior 3 months. Kcentra may not be suitable in patients with thromboembolic events in the prior 3 months.

-INDICATIONS AND USAGE--------------------------------------------
Kcentra, Prothrombin Complex Concentrate (Human), is a blood coagulation factor replacement product indicated for the urgent reversal of acquired coagulation factor deficiency induced by Vitamin K antagonist (VKA, e.g., warfarin) therapy in adult patients with:
• acute major bleeding or
• need for an urgent surgery/invasive procedure.

-DOSE AND ADMINISTRATION---------------------------------------
For intravenous use only
• Kcentra dosing should be individualized based on the patient’s baseline International Normalized Ratio (INR) value, and body weight.
• Administer Vitamin K concurrently to patients receiving Kcentra to maintain factor levels once the effects of Kcentra have diminished.
• The safety and effectiveness of repeat dosing have not been established and it is not recommended.
• Administer reconstituted Kcentra at a rate of 0.12 mL/kg/min (~3 units/kg/min) up to a maximum rate of 8.4 mL/min (~210 units/min).

PRETREATMENT INR 2 – < 4 4 – 6 > 6
Dose* of Kcentra (units† of Factor IX) / kg body weight 25 35 50
Maximum dose* (units† of Factor IX) Not to exceed 2500 Not to exceed 3500 Not to exceed 5000

* Dosing is based on body weight. Dose is based on actual potency as stated on the carton, which will vary from 20-37 Factor IX units/mL after reconstitution. Nominal potency is 500 or 1000 units per vial, approximately 25 units per mL after reconstitution.
† Units refer to International Units.
‡ Dose is based on body weight up to but not exceeding 100 kg. For patients weighing more than 100 kg, maximum dose should not be exceeded.

-ADVERSE REACTIONS---------------------------------
The most common adverse reactions (ARs) (frequency ≥2.8%) observed in subjects receiving Kcentra were headache, nausea/vomiting, hypotension, and anemia.

The most serious ARs were thromboembolic events including stroke, pulmonary embolism, and deep vein thrombosis.

To report SUSPECTED ADVERSE REACTIONS, contact CSL Behring at 1-866-915-6958 or FDA at 1-800-FDA-1088 or www.fda.gov/medwatch.

-USE IN SPECIFIC POPULATIONS----------------------------------
Pregnancy: No human or animal data. Use only if clearly needed.

Based on March 2014R version.
AGENDA AT A GLANCE

MONDAY  MAY 4

11:30 am - 4:00 pm: Provider Registration  Oceans Ballroom
11:30 am - 7:30 pm: Supplier Registration Crystal Registration Desk
12:00 pm - 4:00 pm: Supplier Showcase  Oceans Ballroom
4:15 pm - 5:30 pm: Provider Orientation  Crystal Ballroom
5:30 pm - 6:15 pm: Provider Dinner  Discovery Ballroom
6:00 pm - 6:30 pm: Supplier Orientation  Crystal Ballroom
6:30 pm - 7:30 pm: Welcome Reception  Terrace Lawn
   7:30 pm - . . . .  Hospitality Suites  Second Floor

TUESDAY  MAY 5

7:00 am - 6:00 pm: Registration Desk Open  Crystal Registration Desk
7:00 am - 8:00 am: Breakfast  Discovery Ballroom
8:00 am - 9:30 am: Opening Remarks & Keynote Address  Crystal Ballroom
9:30 am - 9:45 am: Coffee Break  Crystal Prefunction
9:45 am - 10:45 am: Educational Session  Crystal Ballroom
11:00 am - 12:00 pm: Educational Session  Crystal Ballroom
11:30 am - 1:00 pm: Lunch  Terrace Lawn
1:15 pm - 2:30 pm: Educational Session  Crystal Ballroom
3:00 pm - 5:00 pm: Reverse EXPO Session 1  Oceans Ballroom
6:00 pm - 10:00 pm: Dinner & Entertainment  SeaWorld’s Ports of Call

*Shuttles will run continuously between the hotel and Ports of Call from 5:50 pm - 10:00 pm.

WEDNESDAY  MAY 6

7:00 am - 12:00 pm: Registration Desk Open  Crystal Registration Desk
7:00 am - 8:00 am: Breakfast  Discovery Ballroom
8:00 am - 9:00 am: Educational Session  Crystal Ballroom
9:30 am - 11:30 am: Reverse EXPO Session 2  Oceans Ballroom

OPENING REMARKS AND KEYNOTE ADDRESS

8:00 AM - 9:30 AM • Crystal Ballroom
1.5 hours

KEYNOTE SPEAKER: Dr. Jason Selk

While serving as the Director of Mental Training for the St. Louis Cardinals, Dr. Jason Selk helped the team win their first World Series in over 20 years, and in 2011 he assisted the Cardinals in the historic feat of winning their second World Championship in a six year period. Dr. Selk is a regular contributor to Forbes, INC, Success, Shape, and Self Magazine; ABC, CBS, ESPN, and NBC radio and television; and has been featured in USA Today, CNBC, and Men’s Health. Dr Selk’s second book, Executive Toughness, is a best-selling business book and his first book, 10-Minute Toughness, is on pace to be one of the best-selling sport psychology books of all time.

Dr. Selk is considered to be one of the premier performance coaches in the United States. He helps numerous well-known professional and Olympic athletes as well as Fortune 500 and Fortune 100 executives and organizations develop the mental toughness necessary for high-level success.

In this keynote presentation, Relentless Solution Focus (RSF): The Ultimate Measure of Mental Toughness, attendees will learn to use the tool that allows individuals to overcome all obstacles of achievement. RSF is a concrete and proven method of increasing individual health, happiness and success and by extension produces organizations that are healthier, happier and more successful. Each attendee will once and for all develop the positive mindset needed to outperform the competition.

LEARNING OBJECTIVES:

At the completion of this activity, the participant will be able to:

• Describe Problem Centric Thought (PCT) Alert System – knowledge of how to avoid the “PCT disadvantage”
• Discuss RSF Tool-Motivation and ability to replace all negative thinking with solution focused thought within 60 seconds
• Identify Solution Focused Meeting Protocol and how it can be the simple yet effective manner to make all meetings more efficient and productive
HAZARDOUS DRUGS - PART 1
A New USP Chapter for Protecting Patients and Practitioners
9:45 AM - 10:45 AM • Crystal Ballroom

Speaker: Eric Kastango, MBA, RPh, FASHP
CEO & President
Clinical IQ, LLC

Hazardous drug compounding occurs frequently in inpatient and ambulatory settings. Though most of the medications are sterile compounds, manipulation of non-sterile hazardous medications also occur. Three documents that lead practice decisions concerning handling hazardous drugs are in the process of being revised or released: the 2014 NIOSH List of Antineoplastic and Other Hazardous Drugs in Healthcare Settings, the 2004 NIOSH Alert (under revision) and new proposed USP Chapter <800>. This program will identify the current status of compounding with hazardous drugs, including facility and personnel requirements, environmental monitoring, and personnel safety issues, and outline the requirements and recommendations health systems need to safely provide services involving hazardous drugs.

Eric Kastango is president of Clinical IQ LLC, a health care consulting firm and CriticalPoint, LLC, a web-based education company. Eric received his Bachelor of Science degree in Pharmacy from the Massachusetts College of Pharmacy and Allied Health Sciences and his Master of Business Administration degree from the University of Phoenix. He is also the 2014 recipient of the NABP Henry Cade Memorial Award that recognized the efforts and assistance to the states and NABP to address the compounding tragedy that occurred in 2012.

Since 1980, he has practiced pharmacy in a number of practice settings, including hospitals, community and home care, and in a number of different roles, including the Corporate Vice President of Pharmacy Services for Coram Healthcare Corporation. He has also managed a FDA-registered cGMP manufacturing operation for Baxter Healthcare Corporation. He is an active member and Fellow of the American Society of Healthcare Pharmacists and served on the USP Sterile Compounding Committee from 2005-2010 and 2010-2015 USP Council of Experts, Compounding Expert Committee until April 2013. He is currently an Expert Consultant to the USP and is actively working with NABP and state boards of pharmacy to provide training to their sterile compounding inspectors.

LEARNING OBJECTIVES:
At the completion of this activity, the participant will be able to:

• Summarize the key non-compliant issues concerning hazardous drugs
• Describe the various state and national initiatives designed to protect healthcare workers handling hazardous drugs
• Understand the major proposed requirements of the new USP hazardous drug chapter
• Define the ideal facility design elements for inpatient and ambulatory practice sites

HAZARDOUS DRUGS - PART 2
A New USP Chapter for Protecting Patients and Practitioners
11:00 AM - 12:00 PM • Crystal Ballroom
2 hours / Parts 1 & 2
CONTROL SUBSTANCE DRUG DIVERSION

What keeps us up at night and closing the gaps to get a full night sleep

1:15 PM - 2:30 PM • Crystal Ballroom
1.25 hours

Speaker: Christopher R. Fortier, PharmD, FASHP
Chief Pharmacy Officer
Massachusetts General Hospital

Christopher Fortier is the Chief Pharmacy Officer at the Massachusetts General Hospital in Boston, MA. He serves as an Adjunct Associate Professor at the University of Connecticut School of Pharmacy, Northeastern University School of Pharmacy, and the Massachusetts College of Pharmacy. In 2010, Chris was selected to represent South Carolina as a voting member at the ASHP/ASHP Foundation’s Pharmacy Practice Model Initiative Summit. He is currently the UHC Pharmacy Council’s Executive Committee Member-At-Large and previously served 3 years on the University HealthSystem Consortium’s (UHC) Pharmacy Council’s Executive Committee and chaired the Medication Use Informatics and Technology Committee. Chris received his Doctor of Pharmacy degree from the University of Connecticut and completed both a PGY-1 Practice Residency and a PGY-2 Health-System Pharmacy Administration Residency at the Medical University of South Carolina and completed both a PGY-1 Practice Residency and a PGY-2 Health-System Pharmacy Administration Residency at the Medical University of South Carolina Medical Center. Previously he was the Manager of Pharmacy Support and Operating Room Services at the Medical University of South Carolina Medical Center.

LEARNING OBJECTIVES:

At the completion of this activity, the participant will be able to:

• Describe a large academic medical center’s experience around control substance drug diversion and a regulatory agency’s internal investigation
• Discuss the specific drug diversion process improvement initiatives, policy development, and optimization between pharmacy, nursing, anesthesia and hospital security
• Outline the lessons learned and potential system gaps when implementing a comprehensive diversion surveillance program and consistent compliance around regulatory reporting requirements

PLEASE NOTE:

BE SURE TO HAVE YOUR NAME BADGE SCANNED BEFORE EACH EDUCATIONAL SESSION. CE CREDIT WILL BE AWARDED BASED ON BADGE SCANS PER SESSION.
BIOSIMILARS - IMPLICATIONS FOR HOSPITALS AND HEALTH SYSTEMS

8:00 AM - 9:00 AM • Crystal Ballroom
1 hour

Speakers:
Burnis D. Breland, MS, PharmD, FASHP
Burnis D. Breland is an independent health system consultant and educator and has recently assumed the role as manager, 340B compliance and education support with Apexus / 340B Prime Vendor Program. He served as Director of Pharmacy at The Medical Center, Columbus Regional Health, Columbus, Georgia for over 30 years where he also served in various roles including Administrative Director of Oncology, Director of Clinical Research, Director of Infusion Services, and Director of the Transition of Care Clinic. He has served as Affiliate Clinical Professor, Department of Pharmacy Practice, Auburn University; preceptor for the University of Georgia, Mercer University, and South University Schools of Pharmacy; and Director of the Pharmacy Residency Programs at Columbus Regional. Dr. Breland received his Doctor of Pharmacy from the University of Tennessee in Memphis, and was recognized as a Fellow of ASHP in 1991. He is a recipient of the ASHP Best Practices award, the ASHP & Northeastern University Webb Lecture award, the Abbott Quality Pharmacy award, the GPhA Innovative Pharmacy Practice award, two time recipient of the GSHP Hospital Pharmacist of the Year award, and recipient of the GSHP Community Service award. He has authored articles and book chapters published in the pharmacy and medical literature.

Steven Lucio, PharmD, BCPS
Steven Lucio is Senior Director of Clinical Solutions and Pharmacy Program Development at Novation, a health care supply chain and analytics company in Irving, Texas. During his tenure at Novation, he has had responsibility for providing education to member organizations and supporting their efforts on various clinical practice topics including improving medication safety, managing hazardous pharmaceutical waste, mitigating the impact of drug shortages, benchmarking pharmacy costs for key drug classes, evaluating the expense of high cost biologics and specialty drugs and preparing for the future development of biosimilar medications. Prior to joining Novation, Steven practiced for almost 10 years within the Baylor Health Care System in both inpatient and ambulatory care. Steven holds a PharmD from Creighton University, a Bachelor of Science in Pharmacy from the University of Texas at Austin, and is a Board Certified Pharmacotherapy Specialist. He is author of several recent publications on the topic of biosimilars.

LEARNING OBJECTIVES:
At the completion of this activity, the participant will be able to:
• Describe the current status of biosimilars including the approval process for biologically similar products in the United States.
• Discuss the differences in small molecule drug compounds and biological therapeutic agents including the differences in the manufacturing processes, variability between products, and the potential for clinically significance variations.
• Identify biosimilars that are currently under review by the FDA and other potential biosimilar products that may be introduced into the U.S. market in the near future.
• Evaluate the current status of the US biosimilars regulatory pathway and the litigation that will determine the timing of competition in the biologics market.
• Discuss the European experience with biosimilars and what can be done to drive even greater uptake in the US.
• Discuss considerations for evaluation and acceptance of biosimilars by hospitals and health systems.
• Discuss the potential financial impact of biosimilars on health systems and market variables which may affect utilization and product competitiveness.

OCEANS BALLROOM

Session 1: Tuesday, May 5, 3:00 PM - 5:00 PM
Session 2: Wednesday, May 6, 9:30 AM - 11:30 AM

In the Reverse EXPO sessions, Hospital Pharmacy Directors and GPO Executives host exhibit tables while suppliers walk through the hall. This unique event is a fun change of pace from traditional expo formats and provides the best networking opportunity for both providers and suppliers.

On the next page, you will find a map outlining the location of each booth in the hall. Please refer to the list of specific booth assignments (pages 29 - 42) to locate each provider executive during the Reverse EXPO.

Vice President of Pharmacy Services
When choosing medication automation, you want to make sure it will live up to expectations—now and in the future. The proven Omnicell® Unity enterprise platform delivers. It streamlines workflow by integrating medication, supply, and central pharmacy automation systems on a single database, and keeps your technology up to date through annual software upgrades. Join the over 1,800 health care facilities that are saving time, reducing interruptions, and increasing medication security since choosing the Unity platform.

**Omnicell—Proven, not just promised.**

“We found that Omnicell’s advanced technology is unparalleled in the market. Omnicell’s interoperability, user-friendly interface and forward-thinking approach to medication management set them apart in our search.”

Jeff St. Clair
President and CEO
Springhill Medical Center

Omnicell was ranked Best in KLAS for Automated Medication Dispensing Units from 2010 – 2014. Best in KLAS Awards—Medical Equipment & Infrastructure Reports, 2006-2014. ©2014 KLAS Enterprises LLC. All rights reserved. www.KLASresearch.com

An Innovative Non-Aerosol Unit Dose Topical Anesthetic Spray

- Meets Joint Commission Standard for the most ready-to-administer form available.*
- Utilizes bar code medication administration (BCMA) to accommodate point-of-care scanning.
- Virtually eliminates adverse events resulting from preventable medication errors, ensuring the “5 Rights” are met:
  √ Right Drug  √ Right Patient  √ Right Dose  √ Right Route  √ Right Time
- Single unit-of-use packaging eliminates the potential for cross-contamination.
- Increases billing accuracy and improves supply chain costs.

SPECIAL THANKS TO OUR TITLE SPONSOR

Cardinal Health

Essential to care™
What’s most important to your pharmacy?

Cost savings
Experience 20 to 30 percent savings over the cost of hiring overnight staff

Patient safety
We intervene on medication orders three to five percent of the time — half of which are potential safety issues

24/7 Pharmacy coverage
Average turn-around time on orders less than 20 minutes
